

Expedition Skills

A short and intensive training for logistic and maritime skills

During this intensive training of 6 weeks we teach you the basic skills to be able to find a job in international trade.

The participants will learn about the different kinds of cargo, the parties involved in the chain of transport and their roles, documentary credit, customs and the documents needed in the carriage of cargo. You will learn to fill in the Bill of Lading (maritime transport) and the CMR (road transport).

Flexi-training

This training is a unique combination of 3 components. It exists of:

- Self-study modules and feedback moments with an instructor to ask questions about the subject material
- specialised workshops with professional experts from LOGOS
- control moments to make exercises in group and to test your knowledge
